

Algebra I

2-2

Rules for Addition

Mr. Holm's Rules for Addition

1) When adding two negatives: $\longrightarrow (-7) + (-5)$

a)

b)

c)

2) When adding one positive and one negative: $\longrightarrow (-7) + 5$

a)

b)

c)

Simplify. (pg 52)

1) $(-4 + 8) + 7$

11) $-26 + [-2 + (-8)]$

Try on your own!

19) $-4 + (-10) + 9 + (-6)$

$$31) 3a + (-7) + 4b + (-6)$$

Assignment:
The Classic 2-2
pg. 52
1-34 all, 36, 38
