Solve.

1) A sculpture is 14 years older than a painting by the same artist. The sculpture is also three times as old as the painting. How old is each?

2) Two numbers differ by 38. Their sum is 146. Find the numbers.

3) The height of a flagpole is three fifths the height of a building. The difference in their heights is 8 meters. What is the height of the building?
