10) David earns three times as much each week as a lifeguard than he does stocking shelves. His total weekly wages are $210 more than that of his younger brother. His brother earns one-third as much as David does as a lifeguard. How much does David make as a lifeguard?

14) In September, Maya baked three times as many cupcakes as Leo. In October, Maya baked 12 fewer cupcakes than she did in September, while Leo baked 6 more cupcakes than he did in September. If they baked the same number of cupcakes in October, how many cupcakes did each bake in September?
